

3 things to know about getting access to CareMore Health

1

CareMore works closely with the PCP to offer patients these expanded services:

- Chronic Disease Management
- On-site Pharmacist
- Behavioral Health Services
- Plus many other services and programs

Patients will continue to see their PCP for regular checkups, primary and non-urgent care services.

2

Choose the PCP's CareMore network ID

in order for the member to get access to CareMore services. For a full list of results, please scan this code.

You can also go directly to the Locate Services tool on www.caremore.com

3

Remind your new member to schedule their *Healthy Start*TM with CareMore

Have your new member call **1-888-291-1387** to schedule this appointment and get plugged in so they can maximize their CareMore support.
